

CIVAN METIN

Email: metcivan@gmail.com | Phone: 647-996-0773

Location: Toronto, Canada | GitHub: <https://github.com/Gone-M> | Website: <https://civanmetin.com>

Junior Full-Stack Developer

Highlights of Qualifications:

- Experienced in responsive web development with React.js, PHP, Node.js, and MongoDB.
 - Proficient in RESTful API design and secure data communication.
 - Skilled in Agile methodologies and team collaboration.
 - Experienced in CI/CD pipelines with Docker and Jenkins.
 - Strong in integrating third-party APIs and cloud services.
 - Knowledgeable in database design and query optimization.
 - Familiar with microservices architecture and containerization.
 - Experienced in cross-browser and device compatibility testing.
 - Hands-on experience with cloud platforms like Azure.
-

Skills

- **Development:** HTML5, CSS3, JavaScript, React.js, Bootstrap, PHP, Node.js
 - **Backend & APIs:** RESTful APIs, MongoDB, MySQL, PostgreSQL
 - **Tools & Platforms:** Git, GitHub, Docker, Jenkins, AWS, Microsoft Azure
 - **Programming Languages:** Java, Python, C#, PHP, JavaScript
 - **Testing Tools:** Postman, Jest, Mocha, Chai
-

Summary

Motivated Junior Full Stack Developer with hands-on experience in developing responsive web applications using HTML, CSS, JavaScript, React, PHP, Node.js, and MongoDB. Skilled in creating dynamic, user-friendly interfaces and implementing robust back-end solutions. Proven ability to collaborate effectively in team settings, leveraging Agile methodologies to ensure timely delivery of high-quality projects. Strong problem-solving skills, with a keen eye for detail and a passion for optimizing application performance and user experience. Eager to contribute to dynamic development teams, apply innovative solutions to complex challenges, and continuously expand technical expertise in cutting-edge technologies.

Experience

Junior Full Stack Developer

MiMo Solutions Inc., Toronto (Oct 2022 — Dec 2024)

- Designed and developed responsive web applications using React.js, PHP, and Node.js.
- Built RESTful APIs to enable secure and seamless data communication between front-end and back-end systems.
- Improved application performance through advanced caching and database optimization strategies.

- Conducted thorough testing and debugging using tools such as Postman and Jest to ensure system stability.
- Collaborated with UI/UX teams to enhance user satisfaction with visually appealing designs.
- Integrated third-party APIs, including payment gateways and cloud services, to extend application capabilities.
- Automated build and deployment processes with CI/CD pipelines using Jenkins and Docker.
- Implemented modular and scalable architecture patterns to handle increasing traffic and data loads effectively.
- Applied web application security measures, including input validation, authentication mechanisms, and data encryption, to safeguard user data and prevent vulnerabilities.
- Integrated real-time functionalities such as live notifications and chat features using WebSocket or similar technologies.
- Deployed monitoring tools such as New Relic or Grafana to track system performance and identify bottlenecks.
- Regularly reviewed and refactored legacy code to enhance maintainability and adhere to modern coding standards.

Web Development Intern

MiMo Solutions Inc., Toronto (Nov 2022 — Oct 2023)

- Developed responsive website features with HTML, CSS, JavaScript, and PHP, ensuring cross-platform compatibility.
 - Assisted in code reviews and debugging sessions to enhance code quality and application reliability.
 - Integrated third-party APIs for payment processing, social media logins, and notifications.
 - Conducted usability testing to gather feedback for iterative design improvements.
 - Documented technical workflows to streamline onboarding for new developers.
-

Education

George Brown College

Advanced Diploma Computer Programming and Analysis (2022 — 2025)

- Advanced knowledge of software development, database management, and system design.
 - Hands-on experience in Java, Python, PHP, and C#.
 - Capstone Project: Developed a scalable web application with integrated database solutions.
-
